

EIB, MEEMA and the EU Commission: Energy Financing Workshop

JASPERS potential support for the Just Transition

Sarunas Bruzge

15.07.2020

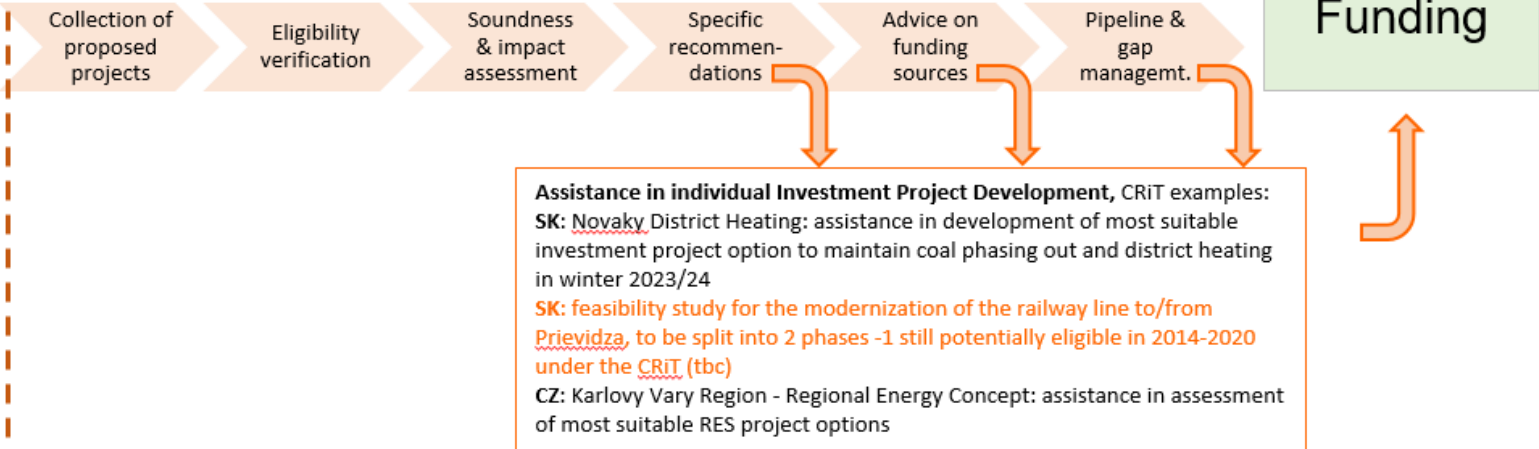

How JASPERS currently assists Coal Regions in Transition

JASPERS support in preparation of the project pipeline

Transition Plans
Established under MS / regional responsibility (occasionally with EC assistance)

related

Sector Plans
Established under MS / regional responsibility (e.g. for Transport Sector, SUMP, etc. - frequently with JASPERS support)

The objective of JASPERS typical support to CRiT regions is assistance in **generation and development of compliant invest projects** through

- Collection of project proposals from beneficiaries and municipalities / regions,
- Advice on project eligibility, soundness and impact on objectives as per approved procedure and criteria
- Specific recommendations for further project enhancement and need resp. options for technical assistance
- Identification of funding sources
- Prioritisation & development of project pipelines including gap identification
- Specific training / train-the-trainer events for first-time beneficiaries
- To the extend necessary: analysis or revision of existing sectoral plans (e.g. transport/SUMPs) to identify projects that can or must be supported

JASPERS has **supported regions in transition** across Europe during the current Programming Period through its involvement in the **Coal Regions in Transition initiative**. Baseline for assistance has been a project Assessment methodology developed by JASPERS.

- **Poland**

- Preparation of assessment methodology
- Assistance to 3 CRiT: Slaskie, Dolnoslaskie, Wielkopolskie
- Screening on 24 selected out of a total of 90 project proposals and specific advice to each region and project individually.
- Coordination meetings with the different stakeholders

- **Czech Republic**

- Assistance to 3 CRiT: Moravia-Silesia, Karlovy Vary, Ústí
- Initial review of 3 pilot project proposals, out of 40 pre-selected project ideas
- Organized 3 webinars, one for each region, to provide detailed feedback on the strongest project from each region

- **Slovakia**

- Assistance to Horna Nitra CRiT
- Screening on 7 selected out of a total 220 project ideas and specific advice to region and each project individually

- **Romania**

- JASPERS assignment requested, but not yet formalized
- Assistance to 1 CRiT: Jiu Valley
Expected scope: assist development and prioritisation of project proposals identified in the expected Transition Plan which is established with support of DG REFORM/SRSP

The objective - assist the Region in efficient and effective **management, development** and **implementation** of the Just Transition **project pipeline**

JASPERS support may include but is not limited to:

- Advice and assistance on preparation of project pipeline.
- Assistance and advice in collection of relevant project proposal data / documents.
- Support in establishing a relevant project screening process.
- Advice to individual project proposals, including the level of compliance with Just Transition objectives, national, regional and/or territorial plans (e.g. NECPs, etc.), project strengths / weaknesses and further development potentials, need for TA, dependency on other projects (including other Just Transition pillars), potential sources of funding

- Prioritization of projects, inter-relation / dependencies of projects (e.g. potentially linked to other JTM pillars), pipeline gap analysis, progress analysis, identification and resolution of bottlenecks.
- Assistance and support in project development for approval and eligibility for funding.
- Building necessary local capacities and competencies (train-the-trainer events and webinars)
